INTERNATIONAL WORKSHOP

on

Population Health Promotion: An International Perspective

An event under
GIAN
Global Initiative of Academic Networks

December 18-24, 2017

Organized by
Panjab University, Chandigarh

under the aegis of

About GIAN

Global Initiative of Academic Networks (GIAN) is a new program approved by Govt. of India which is aimed at tapping the talent pool of scientists and entrepreneurs, internationally to encourage their engagement with the institutes of Higher Education in India so as to augment the country's existing academic resources, accelerate the pace of quality reform, exchange of scientific thoughts through collaborations and elevate India's scientific and technological capacity to global excellence.

Overview & Scope

This course focuses on social determinants of health including attention to theoretical influences and methodological approaches. Conceptual and methodological strengths and challenges will be considered with a view to develop critical interpretive skills in analysis of data sets and research reports and developing knowledge translation skills. This course will be concerned with the contributing factors to the health of the population as an aggregate. Population health status as a function of social, economic and physical environment, personal health practices, individual capacity and coping skills and healthcare services will be addressed. The influence of these factors and their interactive effect on societal health status will be considered. Further, the role of population health interventions in addressing health disparities will be examined from the stage of conception to evaluation. Important components such as community-engagement, partnership, policy and advocacy will also be highlighted.

About Chandigarh

Chandigarh is one of the most beautiful and well planned cities of India, designed by the French architect Le Corbusier. Serenity and a city are normally two diametrically opposite concepts, which however, get belied in the 'City Beautiful'. Chandigarh is a rare epitome of modernization co-existing with nature's preservation. The city is located near the foothills of the great mountains of Himalayas with the Queen of Hills, Shimla.

About Panjab University

Panjab University (PU) a public collegiate university, located in Chandigarh is one of the oldest Universities in India and established in 1882. University campus is spread over an area of 550 acres in sectors 14 and 25 of the city of Chandigarh. It is among the top ranked Universities of India. Panjab University has a long tradition of pursuing excellence in teaching and research in science and technology, humanities, social sciences, performing arts and sports. PU campus is also attracting and supporting the best minds and recruiting faculty who excel at teaching and research. University has 78 Teaching and Research departments and 15 Centers/Chairs in the main campus. University has 188 affiliated colleges spread over Punjab. Gandhi Bhawan- one of landmark of 'city beautiful' is located at the university campus and has stunning architectural structure.
